Anæsthetic agents, new, 214, 326; employed in China, 247
Analyses: Treatment and theories of Asiatic cholera; abstracts of papers by Mr. Emmett, Dr. A. Carr, &c., 66
Anasarca, case of, after scarlatina, 127; Dr. Walshe on a case of, 415; in old people, 583
Anathema of a chemist against the potato, 53
Anatomical preparations, Mr. Goadby, note on, 518
Anatomy Act, defects of, 55
Anatomy, advance of comparative, 197
St. Andrew's, examination at, 30
Anel, operation of, 171, 225, 226
Anemometer, the, 534
Aneuralgicon, the, 42; engraving of, 45
Aneurism, treatment of, prior to the time of Hunter, 55; post-mortem examination of a case of, 119; remarks on, 120, 121; of the axillary artery, 126; Mr. Guthrie on cases of, 169; on a post-mortem examination eight years after operation, 170; cases of M. Alquié &c., 171; in the ham, 257; of the thoracic aorta, 603; of the popliteal artery, 615, 671
Aneurism needle, a new, 546
Anile dentition, 564
Anodynes, treatment of gout and rheumatism by, 568
Anthrax, 278
Antidote to cholera, 218
Antimony, potassio-tartrate of, in cholera, 67
Antrum, disease of, from a fall, 18
Aorta, death from rupture of its arch, 63; anomaly of, and of its branches, 210; aneurism of the thoracic, 510, 603
Apoplexy, causes of, 269; connexion of affections of heart with, 279; phenomena of, 286; of the cerebellum, 319
Apothecaries, claims and duties of, 520
Apothecaries and Surgeons, Mr. Cox on, 601
Apothecaries, Society of, 211; evidence of Mr. Cartwright respecting, 283; v. Lobo, 239, 240, 377, 386, 464, 466, 545; pass-list of, 81, 108, 135, 190, 218, 247, 275, 301, 329, 356, 385, 412, 439, 467, 521, 547, 602, 629, 656, 683, 705
Apothecary, what is one, 383
Appointments, medical, 136
Apprenticeship, Dr. Christison on medical, 31
Arlidge, Dr., on a recent death from chloroform, 205
Arm, lacerated, amputation of, 7
Armies, Dr. R. Jackson on, 147
Armstrong, Dr., on a fatal case of rheumatism and pericarditis, 64
Army and navy medical officers; indignities towards, 156
Army medical department, 212; Mr. Martin on the medical department of the Indian, 295, 298, 463
Army surgeons, the claims of, 349, 351, 673
Arnott, Dr. James, on obstetric inventions and surgical improvements, 641; note of Mr. Critchett on, 672; reply of Dr. Arnott, 702
Arsenic, poisoning by, and recovery, 35; evils of, in agriculture, 71; in cake sweatmeats, 191; in skin diseases, 560; tonic power of, 561; should be taken with meals, 561; in cutaneous affections, 609
Arteries, Mr. Guthrie on treatment of wounded, 55; on injuries of the femoral, 111; aneurism of the axillary artery, 127; ligature of the external iliac, 135, 148; Mr. Guthrie on cases of ligature of iliac for a wound of femoral, 168; a wounded, surrounded by suppuration, not necessarily unsound, 224; ulceration of inferior gastric, 235; gunshot wound of peroneal, 254; wounds of posterior tibial, 255; ligature of the femoral, 255, 497, 614; Mr. Guthrie on wounds of the posterior tibial, 227; Mr. Guthrie on a wound of the femoral, 303; on wounds of the gluteal, 303, 304; necessity for tying both ends of wounded, 304, 305; mortification of femoral, 306; ligature of the external iliac, 476; prognosis favourable in, 476; ligature of the common carotid for a suicidal wound of the throat, 556; Dr. Massey on ligature of the femoral, for wound of the anterior tibial, 614
Arthritis, chronic rheumatic, 588
Artificial foot, new, 347
Associated surgeons, the, 229
Assurance offices, medical fees at, 20, 77, 103, 107, 131, 158, 164, 186, 187, 190, 216, 242, 248, 492, 546, 570; offices that pay medical referees, 107, 186, 190, 243
Asthma successfully treated by chloroform, 336
Asylum for idiots, anniversary dinner, 383; Wilts lunatic, 301; asylums for the insane in the United States, 191, 628
Atkinson, Mr. J. C., on the effects of different winds, 207, 318, 533; Mr. Levison on, 682.
Atlas, exfoliation of anterior arch of the, 208
Attendants, treatment of medical, in cholera cases, 131
Atmosphere, questions concerning the, 208
Auscultation for discovery of springs, 413
Ayre, Dr. J., on cholera, 260
Ayres, Dr. P. B., on non-detection of nitric acid in urine, 298, 437

B

Bain, Mr., official letter from, on the necessity of holding inquests in cases of death from cholera, 703
Bainbridge, Mr., and the Wandsworth and Clapham Union, 244
Baines, Mr. J. K., on a case of malignant cholera, 94
Bancks and Freer, Messrs., on the cases from poisoned flour at Stourbridge, 478
Bandage, a new, 574
Barlow, Mr. W. F., on atrophy of the brain, 92, 248; remarks on, 192; on volition as an excitor and modifier of respiration, 671
Barnes, Dr., evidence of, before the parliamentary committee, 199, 227; opinion of, on the "Principles," 199, 200
Barometer, aneroid, mercurial and wheel, 534
Bartlett, Mr. T., on affections of the urethra, 313
Bascome on Prophylaxis, review of, 479
Bateman, Dr., on fever, 8
Bath, health appointment at, 217
Bathing, its advantages, 629, 658
Baths for subacute ovaritis, 425
Baudens, M., Mr. Guthrie on his practice, 225
Bayonne, small-pox at, 413

Connecticut, clergy and medical profession in, 108

Conolly, lectures of Dr., 686

Conquest's Letters to a Mother, review of, 479

Consumption, Dr. Williams on cod-liver oil in, 100

Contagion, unchangeableness of special, 11; Mr. G. Todd on, 200; has no influence beyond a few feet, 201; opinions of Drs. Graves, Christison, Tweedie, and Hudson on, 201, 203

Convulsions, puerperal, and their dependence on toxæmia, 619

Cooper, Mr. G. L., on constitutional syphilis, 398

——, Mr. J., on the treatment of gout and rheumatism by anodynes, 568

——, Professor, proposed testimonial to the late, 49; brief biography of, 197

——, Mr. W. W., on protrusion of the eyes, 551

Coote, Mr. Holmes, on irregular distribution of veins of the neck, 124

Copaiba externally applied in gonorrhœal ophthalmia, 151

Copeland, Mr. G. F., on the College of Surgeons and the Institute, 518

Copper, sulphate of, in agriculture, 71

Cord, protraction of labour from twisting of, 412

Corneitis, iodine in strumous, 50

Cornish, Mr. W. R., hospital report by, 35

Coronership of Manchester, 329

Coroner's practice in Middlesex, 358

Corpses, preservation of, in Siberia, 155

Correspondents, answers to, 26, 54, 82, 110, 136, 164, 192, 219, 248, 276, 302, 330, 357, 386, 414, 440, 468, 494, 522, 548, 574, 602, 630, 658, 686, 706

Counter practice, 383

Country Surgeon's Companion, the, 133

County courts and medical practitioners, 599

Court medical, a case for a, 570, 590

Court of Exchequer, Wakley v. Healey &c., 187

Cox, Mr. Sands, and the Midland railway company, 294

——, Mr. W. I., on apothecaries and surgeons, 601; on arsenic in cutaneous affections, 609; on iodine in the urine, 491

Craniotomy in delivery, 39, 40, 342

Cranium, hypertrophy of, in old age, 94

Crawford, Mr. James, on a case of cholera, 97

Crime, a remote cause of, 10, 508

Crisp, Dr. Edwards, and the College of Physicians, 73, 107, 129, 161, 298, 326

Critchett, Mr., remarks of, on examinations at the College of Surgeons, 157; note on Mr. Guthrie's lectures, 244; election of, at the Ophthalmic Hospital, 385; on ulcers, review of, 643; note of, 672

Crocker, Mr., and Mr. Underwood, 26, 248, 358

Croonian lectures, the, 275

Crowther, Mr., hospital report by, 365

Curiosities, a column of, 658

Curious alliance, a, 545

Currie, Mr. J. S., on congestion, and treatment in cholera, 583

Curvature of the spine, Dr. W. J. Little on treatment of, 177

Cutaneous diseases, Mr. Griffith on some, 559; Mr. Cox on, 609

Cutler, Dr., on the treatment of pannus and of cholera, 49

Cyclopædia of Anatomy and Physiology, review of, 562

Cysts, contents of ovarian, 414

D

Dalrymple on the Pathology of the Human Eye, review of, 181, 645

Daly, Mr., hospital report by, 661

Dates, necessity of correct, in clinical investigation, 2

Davies, Dr., on cervical paraplegia of infants, 374

——, Dr. D., on alum for hooping-cough, 518

——, Dr. J. Hall, contributions of, from obstetric practice, 39; on cases of difficult labour, 342

Dawson pamphlet, the, 295, 297; proceedings of the College of Physicians, 302

Day, Dr., on Diseases of Advanced Life, review of, 41

——, Mr. Litchfield on the pamphlet of Mr. H., 326

Deafness, Mr. T. H. Wakley on glycerine in its treatment, 624, 631, 664; notes on, 683, 686

Dean of the medical faculty in Paris, 53

Dearsley, Mr., on medical reform, 598

Débridement in the Parisian hospitals, 207

Decomposition necessary to evolution of malaria, 8

Degrees, examination for, by teachers, 51

Delirium cum tremor after hæmatemesis, 206, 321; deficiency of phosphates in, 529; chloroform successful in, 605

Devereux, Dr., remedy for sterility by, 191

De Meric, note from Dr., 190

Demonstrators at St. George's Hospital, alleged neglect of, 132, 159, 189, 247

Dentition, premature, 468; anile, 564

Dewhurst, and mendicancy, 574

Deyber, death of Dr., 81

Diabetes, from over-dose of nitre, 155; Dr. Percy on a bread adapted for patients in, 289; note on, 438; produced by puncturing the floor of the fourth ventricle, 564

Diagnosis the aim of clinical medicine, 2; treatment dependent on, 3; importance of phrenology in, 606

Diarrhœa, premonitory, in cholera, 68; review of Rogers's reports on, in the Madras Army, 68; diagnosis concerning, 110

Dick, Dr., alphabetical notices on the treatment of dyspepsia, 64, 230; on cholera, 665

Diet and regimen, review of Dr. Robertson on, 42; for nurses, 572

Digitaline, 542

Digitalis, probable effects of, in a case of sudden death, 108; Dr. Beardmore on, 641

Diploma, expense of a physician's, 465

Directory, Medical, for 1849, review of, 69; remarks on, 76, 128, 161, 188; and the homœopathists, 160

Disease, influence of meteorological phenomena, on, 682

Diseases of Advanced Life, review of Dr. Day on, 41; of the Bones, review of Stanley on, 695

Dislocation of the neck, successful treatment of a, 692

Diuretics, Dr. Beardmore on, 641
Dixon, Mr. F. B., on a case of strangulated hernia, 62
Double-touch, 265
Douche, uterine, 177
Doctor, right to assume the title of, 172
Dreadnought hospital-ship, a school for surgeons, 82; quarterly return, 132, note on, 371, 385
Dropsy, ovarian, treated by pressure; Mr. I. B. Brown on, 315, 371, 471
Dronett's pauper asylum, cholera at, 25; verdict of manslaughter against, 103; acquittalof, 435
Druggists, Dr. Christison on superintendence of, 34
Drugs, adulteration of, 568
Drummond, on Natural Systems of Botany, review of, 427; on effects of winds in the production of disease, 410
Dublin and Edinburgh graduates, and the "Principles," 436
Duncan, Dr., on the air-tractor, 411
Dutch oil, an anæsthetic agent, 326
Dyce Sombre, medical evidence in the case of, 426
Dysmenorrhœa, treatment of, by caustic, to the uterine neck, 369; sometimes nervous in its origin, 401; lemon-juice in, 618
Dyspepsia, Dr. Dick on the treatment of, 64, 230

E

Ear, larvæ in the, 588
East India Service, Medical Department of, 295, 298
Edinburgh College of Physicians, 5; graduates of, in London, 6; and the "Principles," 436; practising as physicians in England, 437; attempt to deprive them of their rights, 270
Edinburgh University, and some of its graduates, 135
Edwards, Dr. C., on a readily-made implement for plugging the nostril, 122
——— Dr. S., on treatment of dysmenorrhœa, 369
Elbow-joint, scrofulous disease of, 7; Mr. Roberts on a case of fracture of, 96
Elections at hospitals, 667
Electricity, atmosphere charged with, in cholera, 167; of the atmosphere, 358
Electro-biology, lecture by Mr. Smee, on, 418; on, 572
Electro-galvanism, Mr. Horne on, 602
Electroscope, the, 534
Ellerton, Mr. J. E., hospital report by, 603
Embryotomy, 342
Emmett, Mr., on therapeutic effects of medicaments in cholera, 67; on a case of delirium tremens following hæmatemesis, 206; on a case of pericarditis, 605
Emotions, effects of, 286
Emphysema, Dr. Sibson on, 482
Empyema, auscultatory sound of, 120
Endocarditis, with enlargement of liver and spleen, 642
Endopericarditis, case of, 141
Engine counter, an improved, 52
English and Scotch university degrees, relative value of, 30
Engravings of an apparatus for suppressing uterine hæmorrhage, 38, 677; of the aneuralgicon, 45; of structure of mucous membrane of branchiæ of fishes, 92; of fracture of the elbow-joint, 96; of an instrument for applying heat in neuralgia, 122; of a readily-made implement for plugging the nostril, 123; of a syphon female syringe, 176, 177; of Dr. Brown's horizontal lever-belt, 178; tracheotomy instruments by Dr. M. Hall, 368; of voltaic apparatus, 418, 419; of a new instrument by Mr. Hancock, for vesico-vaginal fistulæ, 444; of a new wooden leg, 453; of diseased lung, 496; of Mr. Berington's knapsack and girdle, 502; of the trunk, in a case of hepatitis, 523; entophytes in spermatorrhœa, 528; of catheters for deobstruction of the Fallopian tubes, 530; of a new aneurism-needle, 546; of protruding eye, in anæmia, 552; of an operation on the Fallopian tubes, in sterility, 604; of Mr. T. Wakley's new spring syringe, 664
Enteroraphy, 564
Entophytes in spermatorrhœa, 527
Epidemics in Piedmont, 484
Epilepsy, suggestion for treatment of, 210; during parturition, following albuminous urine, 337; tracheotomy in, 368
Epithelium of gills of fish, 92
Ergot of rye in psoas abscess, 508; its use in the third stage of labour, 638
Errors, popular, 108
Erysipelas, Dr. Walshe on a case of, 388, 390; its connexion with puerperal fever, 537; colchicum in, 618
Ether glue, Dr. Schoenbein on, 289
Ethnological Journal, review of the, 182
Eton Union, the, and Mr. Rayner, 522
Eton guardians and Mr. Rayner, correspondence, 649
Eustachian tube, rarity of disease of the, 208; catheterism of, rarely called for, 209
Evans, Mr. E., on medical fees at assurance offices, 108
——— Mr. W. P., on treatment of cholera by saline injections, 19
Eves, Mr. A., on a suicidal wound of the throat, treated by ligature of the carotid, 556
Evidence, error in parliamentary, 75; delay in publication of, 104. (*See* Select Committee, &c.)
Examination for professional degrees by university teachers, 51; by teachers, 55; medical, abroad, 310; of the University of London, Dr. Storrar on, 172; at the College of Surgeons and Apothecaries' Hall, 364; at the College of Physicians, Edinburgh, 598
Exanthemata, malignancy of the, 557
Excision of the head of the femur, 21; performed by Mr. Fergusson, 61; Mr. Syme on, 266, 625; Mr. H. Smith on, 299, 490, 597; Mr. Norman on, 447, 567; not proposed in all cases of hip-disease, 362
Excision of the clavicle, 392
Excision of tonsils, evil attending, 346
Exeter Hospital, house-surgeon to, 357
Exfoliation of anterior arch of the atlas, 208
Expense of a physician's diploma, 465
Exploration, ovarian, 263; abdominal, 264; vaginal and rectal, 264
Extra-mural interments, 705
Eye, review of Dalrymple on the Pathology of the, 181, 645; Mr. W. W. Cooper on protrusion of the, in anæmia, &c., 551

F

Fæces discharged by the navel, 666
Fallopian tubes inflamed along with ovaries, 232; physiology of, 339; inflammation of, a cause of sterility, 484; case of rupture of, 500; catheterism of, 510, 529; Dr. Tyler Smith on removal of obstructions in, 603
"Falsifications of Food," review of Mitchell on 42
Famine predisponent to fever, 11
Farming pauper children legalized, 271
Farr, Mr. C. J., on the Union Hospital, Manchester, 437

Hansard, Mr. F. A., on appearances after death from strangulation, 512
Hassall, Dr., on development of the fat vesicle, 63; on structure of the tongue, 234
Hawkins, Mr. Cæsar, abstract of the Hunterian Oration by, 196
———, Dr. F., and the college charter, 565, 568
Hay fever, 465; quinine for, 522
Haydon, Mr. N. J., on medical fees at assurance offices, 158
Head, case of injury to, with loss of musical faculty, 668
Headach, Dr. Dick on, 65; pseudo-hysterical, 65, 66
Head and home scheme defeated, 673; and the council of the College of Surgeons, 439
Health appointment at Bath, 217
Health of the metropolis, Dr. Webster on, 430; public, 132
Healy, Dr., on naval assistant-surgeons, 187
Heart, connexion of affections of, with apoplexy, 279; influence of medulla oblongata on, 507; disease of left side of, 542
Hemicrania successfully treated by chloroform, 609
Hemiplegia, Dr. Walshe on a case of, 277
Hepatic compression rhonchus, 595
Hepatitis, Dr. Dick on, 66; uncommon in Europe, 66; caused by biliary congestion, 66; by duodenal affections and cardiac disease, 66; Dr. Dick on, 230; Dr. Walshe on a case of subacute, 522; rare in England, 525
Hewett, Mr. Prescott, presentation of plate to, 414
Hernia, strangulated femoral, 7, 311, 692; Mr. F. B. Dixon on a case of strangulated, 62; opium, not purgatives, should be given after operation, 62; treatment of, by Mr. Hancock, 155; work of Mr. Gay on, 159; chloroform, in strangulated, 183; Mr. Luke on Mr. Gay's operation for strangulated, 189; operation for strangulated, 241, 274; strangulated inguinal, and cure, in a woman upwards of a century, 478; treatment of, on the plan of Mr. Gay, 508; and operations for, 589
Herod, a second, 105
Hess, Dr., on necessity of practical instruction in diseases of children, 341
Hinds, Dr., on example set by Birmingham poor-law guardians, 457
Hip-disease, Mr. Syme on, 206; lecture on, by Professor Fergusson, 359
Hirst, Mr. J. G., on a case of protracted abstinence, 135
Hodges, Mr. R., on a fracture of the skull and dislocation of the femur, 607
Hodgkin, Dr., evidence of, before parliament, 147, 171
Holden's Manual of Dissection, review of, 428
Holland, cholera in, 108, 109; mesmerism in, 329
Homœopathists and the Medical Directory, 160
Homœopathy in Spain, 52; in French hospitals, 377, 522; and cholera, 542; and the Countess of Blessington, 621
Hooping-cough, alum in, 518, 574; Dr. Piddock on treatment of, 640
Hop, Dr. Dick on, 230
Hope on Diseases of the Heart, review of, 14
——, Dr., and his cases, 4
Horne, Mr., on a case of phthisis, cured, 395; on electro-galvanism, 602
Hornidge, letter from Mr., 247
Horse, instance of cholera in the, 267
Horse-chesnuts, fecula from, 108
Hoskins, Mr. H. R., on a dislocation of the humerus, 123
Hospital for Consumption, appointment at, 108

HOSPITAL REPORTS:

Bristol General Hospital—Aneurism of the thoracic aorta, 603
College Hospital, Calcutta—Removal of a large tumour of the neck under the influence of chloroform, 661
Coventry and Warwickshire Hospital—Asthenic laryngitis; tracheotomy, 393
Hospital of St. Felipe, Havana—Ligature of the external iliac artery, 148
King's College Hospital—Excision of the head of the femur, 61
London Hospital—Hæmorrhage arrested by tincture of matico; nævus of the lip removed by ligature, 173
Mercer's Hospital, Dublin—Compound comminuted fracture of the fore-arm—Prussian-blue in the discharge from the wound, 421
Newcastle-on-Tyne Infirmary—Excision of the clavicle, 392
Nottingham General Dispensary—Poisoning by arsenic—recovery, 35
Royal Free Hospital—Stone in the bladder—lithotomy; strangulated femoral hernia—operation; injury to the spine; double hydrocele; hæmatocele, 311; cancer of the lip—removal by operation, and cure; scirrhous enlargement of the sub-lingual gland, 549
Union Hospital, Manchester—Sloughing phagedæna of the labium, 365
Western General Dispensary—Compound comminuted fracture of the frontal bone—operation after an interval of three weeks—paralysis—recovery, 579
Westminster Hospital—Lacerated amputation of the arm; strangulated femoral hernia; scrofulous disease of the elbow-joint, 7
Hospitals and infirmaries, statistics of English, 108; in France, statistics of, 467

Inhalation of nitrate of silver, 374
Injection, Mr. Goadby on, for anatomical preparations, 287; note on, 518
Injecting apparatus, 177
Inoculation a test in syphilis, 38; for small-pox, penalty of, 357
Inquest, necessity for post-mortem examination at, 81
Inquests, propriety of, in cases of death from cholera, 703
Insane, institutions for, in the United States, 71, 191, 628; treatment of, 414; Mr. Brandon on their treatment, 519
Insanity, statistics of, 348; some phenomena of, 427; more common in cold countries, 540; caused by political commotions, 540
Institute, the, and medical reform, 237; scheme of, for medical legislation, 322; and the profession, 379; falsely called National, 405; petition to parliament of, 409; intrigues of the, 518; the, and Mr. Guthrie, 654
Interference with medical duties on board of a line-of-battle ship, 161; clerical, with medical practitioners, 412, 490, 597
Intestines, tuberculous state of, 59; congenital contraction of, 102
Intra-mural burial, 572; story of, 480
Intus-susception in children, 606, 680, 681; cure of, by distention of the intestines, 608
Iodine, employment of, in strumous corneitis, 50; in the urine, 437, 491; Dr. Glover on, 518
Ion, Mr. J. L., on a case of endocarditis, with enlarged liver and spleen, 642
Irish Board of Health and public dispensaries, 48
Iron in anæmia, 3; formulæ for preparations of, in anæmia, 554
Isinglass for anatomical preparations, 289
Isle of Wight, medical clubs in the, 570
Italy, medical reform in, 572

J

Jackson, Mr. T. C., hospital reports by, 549
———, Dr., honour conferred on, 186
———, Dr. R., on the formation and discipline of armies, 647
John-Hunter Club, the, 600, 646, 674, 699, 700, 701, 703
Jones, Mr. Wharton, on entophytes with spermatorrhœa, 527
———, Dr. W., on a syphon female syringe, 176; on treatment of ulcers by pressure, 353
Judd, Mr., on roso-grass oil, 293

K

Kamtschatka, habitations of the people in, 202
Keloides, Mr. Erasmus Wilson on, 70; Mr. Chalk on, 70
Kent Ophthalmic Hospital, appointment at, 602
Kermes mineral inductive of cholera symptoms, 685
Key, Mr., letter from, to Mr. Gay, 159
Kidd, Dr., evidence of, before the parliamentary committee, 144
Kidley, Mr., report of a remarkable case of hernia by, 478
Kidney, affection of, in scarlatina, 127; milk secreted by, 376, disease of, 541, 634; supplementary organs to, 636; importance of attention to, in disease, 641
King, Mr. J., on the preparation of chloroform, 641
Kirkes' Handbook of Physiology, review of, 268
Knapsack, Mr. Berington on a new, 502, 535
Knight, Mr. G. J., on a case of abnormal position of the viscera, 12
Knott, Mr. G. A., hospital report by, 393

L

Labium, phagedæna of, 365
Labour in misfortune, a, 51; cases of protracted, 342; protracted, by twisting of the cord, 345, 412; use of secale cornutum in third stage of, 638
Laceration of the perinæum cured by operation, 555
Laing, Mr. T., supplement to an essay on the nervous system by Mr. Alexander Walker, 610
Lallemand in Egypt, 51; on Spermatorrhœa, review of, 97; Dr. M. Hall on his Letters, 287
LANCET, black-list, a, 105; vote of thanks to editor of, 82
Lane, Dr. Butler, on functional diseases of the liver, 234
Lang, Dr. Henry, appointment of, 602
Langstaff, appeal on behalf of the daughter of Mr., 104
Larvæ in the meatus auditorius, 588
Lawrence, Mr., on the work of Mr. Gay, 160
Laryngismus, spasmodic and paralytic, 368; spasmodic, 517
Laryngitis, asthenic, 393
Larynx, tracheotomy for obstruction in, 43; Dr. M. Hall on the, 368
Latham, Mr. C. W., on an injury to the head, with loss of musical faculty, 668
Lead, acetate of, in cholera, 67; poisoning by, 358

Leading questions to be avoided in clinical medicine, 1

LECTURES :—

CHAMBERS, DR.
Three Lectures on Cholera, delivered at St. George's Hospital:
Lecture 1. — Introduction; description of the disease by ancient and modern authors; stages, symptoms, and post-mortem appearances, in cholera; proximate cause; and state of the blood in cholera, 137
Lecture 2.—Treatment of collapse, congestion, and spasm; use of calomel; secondary fever; causes and progress of cholera, 165
Lecture 3.—Question of the contagion of cholera; its endemic character.—Conclusion, 221

FERGUSSON, PROFESSOR:
A Clinical Lecture on Hip-disease, 359

GUTHRIE, MR.:
Lectures on some of the more Important Points in Surgery:
Lecture 5.—Treatment of aneurism; operation on the plans of Hunter and Anel; experience in the Peninsular war; theory of the author on the treatment of wounded arteries, 55
Lecture 6.—Treatment of injury of the femoral artery; illustrative cases and remarks, 111
Appendix to Lecture 6.—Cases of ligature of the external iliac, for wounds or aneurism of the femoral artery, 168
Lecture 7.—Opinions of Hunterian theorists on the arterial circulation; case reported by Mr. Luke; practice of MM. Baudens and Roux; hæmorrhage attendant on gunshot wounds; wounds of the tibial arteries, 224
Lecture 8. — Amputation with secondary hæmorrhage; ligature of the femoral artery; wounds of the peronæal and tibial arteries; aneurism in the leg, 254
Appendix to Lectures 7 and 8.—Wounds of the femoral and gluteal arteries; illustrative cases; necessity for tying both ends of a wounded artery, 303
Lecture 9.— Secondary hæmorrhage after amputation; ligature of the femoral and external iliac arteries; treatment of hæmorrhage from a stump, 497

SMEE, MR.:
Lecture on Electro-Biology, or the Voltaic Mechanism of Man, 418

WALSHE, PROFESSOR:
Lectures on Clinical Medicine, delivered at University College Hospital:
Lecture 1.—Introductory remarks; dependence of treatment on diagnosis; rationalists and numerists, 1
Lecture 2.—Acute softening of the brain; secondary meningitis; pulmonary disease; report of a case terminating in recovery; clinical remarks, 27
Lecture 3.—Detail of a fatal case of softening of the brain and chronic meningitis; clinical remarks, 58
Lecture 4.—Chorea after ascarides; clinical remarks on treatment, and various remedies, 83
Lecture 5.—Clinical observations on a case of intra-thoracic tumour, 117
Lecture 6.—Rheumatism, pericarditis, double pneumonia, and probable aortitis; commentary on a case, 141
Lecture 7.—Atonic fever; death and post-mortem examination; commentary, 193
Lecture 8.—Paraplegia after gonorrhœa, syphilis, and sexual shock; treatment and cure; commentary, 249
Lecture 9.—Hemiplegia; connexion of affections of the heart with apoplexy; anthrax, 277
Lecture 10.—Anæmia and dyspepsia, followed by hæmatemesis; commentary, 331
Lecture 11. — Pleuritis after rheumatism; erysipelas; treatment and recovery, 387
Lecture 12.—General view of the causes of albuminous urine; anasarca; treatment and recovery, 415, 441
Lecture 13. — Cephalalgia; coma; acute softening of the brain; post-mortem examination, and commentary, 469, 495
Lecture 14.—Subacute hepatitis; abscess in the liver; operation; recovery; different states of the urine during the disease; auscultatory sign of enlarged liver; use of mercury in hepatic diseases, 523
Lecture 15.—Case of tuberculous perforation of the pleura; treatment by paracentesis thoracis; post-mortem appearances; commentary; secretion of gas by the pleura; remarks on perforation as a remedial means, 575
Lecture 16.—Abdominal tumour; treatment and recovery; difficulty of diagnosis in cases of abdominal intumescence, 659

Lee, Mr. Edwin, evidence of, before the parliamentary committee, 309, 365; on the election of the council of the College of Surgeons, 310; on a College of General Practitioners, 365; on the Royal Medical and Chirurgical Society, 382; on medical organization, 667, 693
——— Dr. R., on the case of the Princess Charlotte, 450; on cases of sterility, 550, 662, 688
Leech-bites, bleeding from, restrained by collodion, 22
Leg, abnormal muscular distribution in the, 438
Leith, treatment of cholera at, 123
Lemon-juice in rheumatism, 235; in rheumatism and dysmenorrhœa, 618
Lepra, Mr. S. Griffith on, 559
"Letters to a Mother," by Dr. Conquest, review of, 479
Levison, Mr., on disease of the antrum from a fall, 13; on a new amalgam for the teeth, 491; on importance of phrenology in diagnosis, 606; on the influence of meteorological phenomena in disease, 682
Lewis, Mr., appointment of, 657
Licentiates, privileges of college, 190
Liddle, Mr., and the Whitechapel union, 24
Lindley, Dr. (*See* Reviews.)
Ligature of main trunks does not arrest hæmorrhage, 224
Lightfoot, Mr. Thomas, on the Medical Directory for 1849, 128
Limbs, review of Owen on the Nature of, 617
Lime, oxalate of, in rhubarb, 634
Lind, Dr., on fever, 10
—— Jenny, munificence of, 132, 144; in Norwich, 192; wards proposed to bear name of, 192
Lingen, Mr., on the proposed testimonial to the late Professor Cooper, 49
Lip, nævus of the lower, removed by ligature, 174; cancerous ulceration of, 549
Liquor amnii, 270; constringens, 289
Liston testimonial, 569, 592
Litchfield, Mr., on the Hounslow inquest and late action at Westminster, 215; on the Hounslow inquest, 326; on effects of military flogging, 409
Lithotomy, 311; and lithotrity, chloroform in, 235
Litre, equivalent of the, 155
Little, Dr. W. J., on treatment of lateral curvature of the spine, 177
Liver, inflammation of, 66; Dr. Abercrombie on suppuration of, 66; and lungs, their supplementary relation, 66; diseased, simulating ovarian dropsy, 182, hydatid tumour of, 232; review of Lane on Functional Diseases of, 234; and spleen, Mr. Stuart on, 477; endocarditis, with enlargement of, 642; abscess in, 523; Dr. Begin's mode of treating abscess of, 636
Livingston, Dr., on treatment of cholera at Leith, 123
Lobo *v.* Apothecaries' Company, 239, 250
London, health officer of City of, 163
London Hospital, appointment of Mr. N. Ward, 357
Lucas, Mr. St. John W., on the apathy towards medical reform, 23
Luke, Mr., on Mr. Gay's operation for strangulated hernia, 189; reply of Mr. Gay to, 241; rejoinder to, 274; case by, quoted by Mr. Guthrie, 225
Lunacy commissioners, the, 17, 46; new commissioner in, 52
——— commission, the, Dr. J. C. Williams on, 75; on the, 466
Lunatic Asylum, Wilts, 301; new, 467; asylums in the United States, 71, 191, 628
Lungs, death from disease of, 58; Dr. Williams on structure and function of, 92; and liver, their supplementary relation, 66
Luxation, reduction of, on plan of Mr. Spong, 12

M

Macclesfield Medico-Ethical Society, 602
Macgregor, Dr. J. J., on the use of secale cornutum in the third stage of labour, 638
Macintyre, Dr., on perforation of the stomach connected with diabetes, 376
Mackness, Dr, quotation forwarded by, 133
Madras Army, review of Rogers's Reports of Cholera in, 68
Magnetic influence and temperature, relations between, 629
Malapraxis, a case of, 475
Malaria, decomposition necessary to, 8; limited sphere of, 9; caused by putrid lakes, 9
Malgaigne, M., apparatus of, for steadying limbs, 184
Malignancy of the exanthemata, Mr. J. Welch on the, 557
Mammary gland, tumours of the, 670
Manchester School of Medicine, neglect of clinical instruction in, 187; Royal Infirmary, appointment at, 253; coronership of, 329; Medico-Ethical Association, memorial of, 350, 352; on medical coroners, 354; Union Hospital, 437, 491; medical practitioners, memorial of, 462

Nitre, diabetes from over-dose of, 155
Nitric acid in urine, Dr. Basham on, 328
Nomenclature, Dr. Mayne on medical, 466
Norman, Mr., on morbus-coxarius and excision of the head of the femur, 447; note on, by Mr. Syme, 625
Norwich Hospital, proposed "Lind ward" in, 132
Nostril, Dr. Edwards on a readily-made implement for plugging, 122
Nunn, Mr., on ligature of the external iliac artery, 476
Nunneley, Mr., on two new anæsthetic agents, 214, 326
Nurses, diet for, 572
Nux vomica for cancer, 348

O

Ob'tuary—Dr. Prichard, 18; Dr. Deyber, 81; Dr. Renault, Dr. Peysson, Mr. Colebourn, and Dr. McFarlane, 132; Dr. G. Fownes, 164; Mr. Jackson, 276; Dr. Sessler, 281; Mr. White, 325; Mr. Latham, 329; Dr. G. Gardner and Mr. B. Nightingall, 467; Dr. Duke, 478; Dr. Streeten, 548; Drs. Carioli and Sormani, 573; Mr. Bellott, 656; Dr. Baron, 657; Drs. Bracco and Zanetti, 684; Mr. Clift, 685; Mr. Carmichael, 685
Obscurity, technical, 494
Observation, divisions of clinical, 1; diagnosis the aim of, 2
Observers, 3
Obstetric practice, contributions from, 39, 342
Octogenarian hospital physician, 436
Œdema of the uvula, 509
One faculty, Dr. Christison on the, 32
Open surgeries, a word in favour of, 625
Operation for making capons, 247; laceration of the perinæum, 555. (*See* Guthrie, Tilt, Syme, &c.)
Ophthalmia, external application of copaiba in immediate gonorrhœal, 151; to be treated by depletion, 152
Ophthalmic Hospital, election of Mr. Critchett in, 385; the, 602
Opium indicated after operation for strangulated hernia, 62; effect of, on frogs, 456. (*See* cholera)
Oration, the Hunterian, 191
Order in council, evasion of, 467
Ordnance Medical Department, 212
Organization, medical, 667
Os calcis, removal of, 43
O'Shaughnessy, Mr., removal of large cervical tumour by, 661
O'Shea, Mr., on the privileges of members of the College of Surgeons, and march of quackery, 520; Mr. Preston's reply to, 625; rejoinder of Mr. O'Shea, 677
Os uteri, dilatation of, for sterility, 204
Ottley, Mr. Drewry, evidence of, before the parliamentary committee, 229, 257, 281; on the "Principles," 257
Ovarian cysts, contents of, 414; dropsy, diseased liver simulating, 182, (*see* Brown;) tumour, Mr. Bird on removal of, 71
Ovaries, inflammation of, attended with inflammation of Fallopian tubes, 232; inflammation of, a cause of sterility, 484; Dr. Tyler Smith on, in sterility, 604
Ovaritis, Dr. Tilt on, 232, 263, 338, 399, 423, 444, 499, 554, 616, 636; subacute, 338, pathological anatomy, and causes of, 338, 339; blennorrhagic, 340, 446; acute, 444; causes and symptoms, 445; diagnosis, 446; rheumatic, 446; termination of acute, 446, 499; treatment of acute, 554, 636
Oviducts, inflammation of the, 499
Owen, lectures by Professor, 247; on the nature of limbs, review of, 617

P

Padley, Mr., on a bullet swallowed, 50
Paget, lectures of Professor, 522
Palpitation, protrusion of eyes in connexion with, 551
Pannus, treatment of, 49
Paper-hangings, poisonous, 376

PAPERS IN SERIES:—

ATKINSON, MR. J. C.:
On the effects of different winds on the human constitution, 207, 318, 533

BERINGTON, MR.:
A description of a new knapsack and girdle for infantry soldiers; with a narrative of the steps hitherto taken to promote their adoption in the British army, 502, 535

BROWN, MR. J. B.:
On ovarian dropsy treated by pressure, 315, 371, 471

DAVIS, DR. J. HALL:
Contributions from obstetric practice: uterine hæmorrhage, protracted labour, convulsions, &c., terminating successfully by puncturing the membranes, and by craniotomy, 39; illustrations of difficult parturition; protracted labours, 342

DICK, DR.:
Alphabetical notices of subjects connected with the treatment of dyspepsia: hæmatemesis; hepatitis, 64—hop; hyoscyamus; hypochondriasis, 230

GREAM, MR.:
On some of the causes of sterility remediable by mechanical treatment, 90, 204

HALL, DR. J. C.:
Leaves from the Case-book of a practising physician: suppression of urine, 581, 634

HALL, DR. MARSHALL:
On the neck as a medical region, and on paroxysmal paralysis, 174, 285, 394, 506, 687

LEE, MR. EDWIN:
On some of the chief evils arising from the present state of our medical organization, 667, 693

LEE, DR. R.:
Clinical reports of cases of sterility, 550, 662, 688

SYME, PROFESSOR:
Clinical remarks in surgery, 180, 266, 452

TILT, DR.:
Essay on the Nature and Treatment of the various forms of Ovaritis: definition of ovaritis; its bibliography, 232, 263—pathology and causes of subacute ovaritis, 338; subacute ovaritis; terminations; hysteria, 399; subacute ovaritis; treatment, 423; acute ovaritis; pathological anatomy, causes, symptoms, and terminations, 444; terminations of acute ovaritis metritis; inflammation of the Fallopian tubes; peritonitis, 499; treatment of acute ovaritis, 554; opening the ovarian tumour, 616; treatment of ovaritis; opening of abscesses, 636

TODD, MR. G.:
A Series of Papers on the Causes and Nature of Continued Fever: fever essentially the same under all modifications; marsh miasm; malaria; modifications of febrile poison, 8; the question of contagion, 200; operation of the fever poison, 453, 690

Papillæ of the tongue, Dr. Hassall on, 234; Dr. Ridge on, 427
Paracentesis in pneumo-thorax, 428; Dr. Walshe on, 577
Paralysis, Dr. M. Hall on paroxysmal, 174; position of persons at the period of attack, 410
Paraplegia after gonorrhœa, &c., 249; cervical, in an infant, 374
Paris and Fonblanque, prize awarded to, by the Society of Arts, 135, 271, 406
Paris, cholera in, 276, 356, 385, 413, 467, 521, 629, 656, 685; hospitals, sick in the, 108
Parkin, Mr., on death from rupture of arch of aorta, 63
Parkes, Dr., on the materia medica lectures at University College, 521
Parliamentary evidence, error in, 75. (*See* Select Committee, &c.)
Paronychia, remedy for, 347
Parturition, difficult, 39; epilepsy during, after albuminous urine, 337; cases of difficult, 342; and obstetrics, review of Dr. Tyler Smith on, 584
Patella, tumour over, 346
Pathological Society of London, annual meeting, 25
Patients, gratitude of, 705
Paul, Dr. J. L., on the air-tractor, 652
Pauper-children, starvation of, 103; symptoms of cholera amongst, 153; farming of, legalized, 271; establishments, juvenile, 163
Peacock, Dr., on the cholera cases from Tooting in the Royal Free Hospital, 291
Pearson, Dr. J., on a case of malapraxis, 476
Penalty clause, Dr. Christison on a, 34
Pennington, funeral of Mr., 301
Pennsylvania, lunatic asylums in, 71; account of, 628
Percy, Dr., on a bread adapted for diabetic patients, 289
Pereira's Elements of Materia Medica, review of, 374
Perforation of the stomach, 402
Pericarditis, Dr. Armstrong on a fatal case of, 64; Mr. Emmett on a case of, 605
Perinæum, laceration of, cured by operation, 555
Peritonitis, puerperal, 342; a termination of ovaritis, 501
Perspiration, effects of suppressed, 562
Pessaries, atmospheric, 573
Phagedæna of labium and thigh, 365
Philosophy of Animated Nature, by Dr. Holland, review of, 343
Phimosis, operation for simple, 684
Phlebismus, 175, 285, 286, 395
Phlegmasia dolens, 40
Phrenology important in diagnosis, 606
Phthisis, cod-liver oil in, 100, 184, 396; chlorine gas in, 217; only slightly hereditary, 380; report of a case cured, 395; Dr. Fourcault on, and its prevention, 561; reported cure of, 602
Physician's diploma, expense of a, 465
Physicians and M.D.'s, 76; and surgeons of Glasgow, petition of, in favour of naval surgeons, 566; and general practitioners of England, 704; new censors of the college of, 705
Physic-loving people, a, 453; taking by proxy, 718
Physiology, review of Kirke's Hand-book of, 268; and therapeutics, notes in, 528
Pidduck, Dr., on the treatment of hooping-cough, 640
Piedmont, medical reform in, 81
Pimpernel an indicator of weather, 318
Piracy, American literary, 405
Placenta, use of secale cornutum in removing the, 638
Pleura, tuberculous perforation of, 575
Pleuritis, Dr. Walshe on a case of, 387
Plymouth Dispensary, 53
Plymouth, Dr. Armstrong, and the Royal Naval Hospital at, 108
Pneumonia, different characters of, at different ages, 4; case of double, 141; latent, 194
Pneumo-thorax, paracentesis in, 428
Poisoning with sweatmeats, 191, 219; slow, 358
Political commotions, influence of, 684
Pons Varolii, the seat of sexual passion, 320
Poor-law boards, example for, 457
Poor-law board, deputation of surgeons to the, 593; correspondence of Mr. Rayner with, 650
Poor-law medical officers, convention of, 46, 186, 190, 241, 274, 491, 546, 593; meeting of, 212, 213; and medical reform, 239
Poor-law medical relief, 51, 465, 517; in Halifax Union, 383; petition of the Bury medical officers, 624; letter on, 627; Mr. Rayner and the Eton Union, 649, 702
Poor-law surgeons and the Board of Health, 215
Poor-law trickeries, 569
Popham, Mr., on the symptoms presented by the pauper children at Tooting, 153; on calomel in cholera, 214
Portraits, medical, 81
